

Ministry of
Education

IMPLEMENTATION GUIDE FOR THE FRAMEWORK FOR ENHANCING STUDENT LEARNING

SEPTEMBER 2020

Ministry of Education Government of British Columbia
Implementation Guide for the Framework for Enhancing Student Learning
August 2020

The *Framework for Enhancing Student Learning* (hereafter, the *Framework*) formalizes the planning and reporting expectations for school districts in order to enhance student learning and success. The *Framework* reflects a public commitment by Indigenous peoples and Indigenous rightsholders, education partners and communities to work together to continuously improve student learning in relation to intellectual, human and social, and career development. The Framework requires alignment of provincial K-12 accountability and evidence-informed practices that enhance student learning, inclusivity and equity of outcomes.

The Framework was led by the Ministry of Education and developed through authentic engagement with provincial education partners, and Indigenous rightsholders, in particular:

- BC School Trustees Association
- BC School Superintendents Association
- BC Principals' and Vice Principals' Association
- BC Association of School Business Officials
- BC Teachers' Federation
- BC Confederation of Parent Advisory Councils
- Canadian Union of Public Employees
- First Nations Education Steering Committee
- Métis Nation British Columbia
- BC Student Voice
- BC Council of Administrators of Special Education
- Office of BC's Representative for Children and Youth

Ministry would also like to acknowledge the participation of the nine districts in the early implementation pilot for the [Framework for Enhancing Student Learning policy](#) during the 2019-2020 school year. Their contributions to the policy development and implementation planning was helpful in creating the final policy and this guide. The nine pilot districts are:

- SD6 Rocky Mountain
- SD27 Cariboo-Chilcotin
- SD38 Richmond
- SD42 Maple Ridge-Pitt Meadows
- SD60 Peace River North
- SD64 Gulf Islands
- SD68 Nanaimo-Ladysmith
- SD73 Kamloops-Thompson
- SD79 Cowichan Valley

This implementation Guide for the Framework for Enhancing Student Learning was developed to support Boards of Education to fulfil the responsibilities as outlined in the [Framework for Enhancing Student Learning Policy](#) and [Enhancing Student Learning Order](#).

The planning and reporting processes that school districts use to improve educational outcomes are integral to public assurance and accountability. This implementation guide is intended to share research-informed strategies and promising practices collected from the sector to build capacity. As part of a continuous improvement review cycle, the Ministry will update this document annually to include adapted strategies collected from the sector.

This document provides the policy requirements and guidelines for:

- ☑ Development of district strategic plans
- ☑ Alignment of district annual operational plans
- ☑ Creation of the Enhancing Student Learning Report

Throughout the document, these ICONS will indicate both required and helpful information.

This year, we will be sharing promising practices from the sector through short sector talks, informative video bursts to complement the components of effective strategic planning and reporting. These sector talks will be co-created during the 2020-2021 school year and incorporated into the guide as they become available.

For more information, contact:

E-mail: EDUC.Framework@gov.bc.ca

SECTION A: BACKGROUND

POLICY VISION

British Columbia's education system continues to evolve as evidence of progress is used to inform practice, discover the best ways to support continuous improvement and build public trust and confidence in the quality and inclusivity of education provided. Over the past several years, provincial education partners and Indigenous rightsholders have been engaged with the development of a *Framework for Enhancing Student Learning* within the context of system improvement. Through this work, our current approach to continuous improvement has been broadened to encompass alignment of efforts and measures based on common values and a shared commitment to improve student success, equity and inclusivity of outcomes for all students with a particular focus on Indigenous students, children and youth in care and students with disabilities or diverse abilities.

The *Framework for Enhancing Student Learning* provides the system-wide planning and processes structure to improve student outcomes and ensure continuous improvement throughout the provincial public education system. It is a collective approach that recognizes and fosters diversity, relies on evidence-informed decision making, and is responsive to the various needs of students while respecting local autonomy to deliver educational programs.

BC's *Framework for Enhancing Student Learning* has been developed collaboratively with education partners and Indigenous rightsholders. *The Framework* outlines the following key components to ensure continuous improvement of educational outcomes for all students:

- 1| System-wide Focus
- 2| Multi-year District and School Plans
- 3| Planning Based on Meaningful Evidence
- 4| System-wide Capacity Building
- 5| Student, Family and Community Agency

LEGISLATIVE AUTHORITIES AND COMMITMENTS

Provincial, district, and school educational planning and outcomes should align with legislation, policy, declarations, agreements and reports including but not limited to the following (See [Appendix J](#) for Legislation List):

- 1| [School Act](#) ss. 8.3, 65 (1.1), and 81 and 168 (2) (t)
- 2| [Statement of Education Policy Order](#) (Mandate for the School System)
 - a. Goals of Education
 - b. Educated Citizen (OIC 1280/89)
 - c. Policy for Student Success
- 2| Organization for Economic Co-operation & Development (OCED) Learning Framework 2030 [Position Paper](#)
- 3| BC Tripartite Education Agreement - [BCTEA](#)

- 4] [Métis Nation Relationship Accord II](#)
- 5] Office of the Auditor General of BC 2015 report - [Audit of the Education of Aboriginal Students in the BC Public School System report](#)
- 6] Representative for Children and Youth (RCY) 2017 report - [Room for Improvement: Toward better educational outcomes for children in care](#)
- 7] [Draft Principles that Guide the Province of British Columbia's Relationship with Indigenous Peoples](#)
- 8] BC's [Declaration on the Rights of Indigenous Peoples Act \(DRIPA\)](#)
- 9] [United Nations Declaration on the Rights of Indigenous Peoples \(UNDRIP\)](#)
- 10] [Truth and Reconciliation Commission Calls to Action](#)
- 11] Protocol Agreement between the Ministry of Children and Family Development and the Ministry of Education to guide information sharing between social workers and caregivers, and school personnel regarding children and youth in care (CYIC) under the [Child, Family and Community Service Act \(CRCSA\)](#) - [A Guide to Sharing Information about Children and Youth in Care](#)
- 12] Relevant Ministry Policies, e.g.:
 - a. [Career Development](#)
 - b. [Career-Life Connections and WorkSafeBC Coverage](#)
 - c. [CommunityLINK](#) (Inclusive Education)
 - d. [Compliance Program](#)
 - e. [Diversity in BC Schools](#)
 - f. [English Language Learning Students](#)
 - g. Financial Management Policy (upcoming)
 - h. [Graduation Requirements](#)
 - i. [K-12 Funding – General](#)
 - j. [K-12 Funding – Special Needs](#)
 - k. [K-12 Funding – English Language Learning \(ELL\)](#)
 - l. [K-12 Funding – Indigenous Education](#) (Indigenous Education Targeted Funding Policy)
 - m. [K-12 Funding – Newcomer Refugees](#)
 - n. [Large Scale Assessment](#)
 - o. Online Learning (upcoming)
 - p. [Protection of Personal Information when Reporting on Small Populations](#) (Masking policy)
 - q. [Safe and Caring School Communities](#) (ERASE and SafeSchools)
 - r. [Special Education](#)

BUILDING CAPACITY

The Ministry of Education, rightsholders and provincial education partners are committed to ongoing work together to review and continuously improve the *Framework for Enhancing Student Learning* as well as its related guidelines and supports. This is an opportunity to build and enhance existing planning and reporting

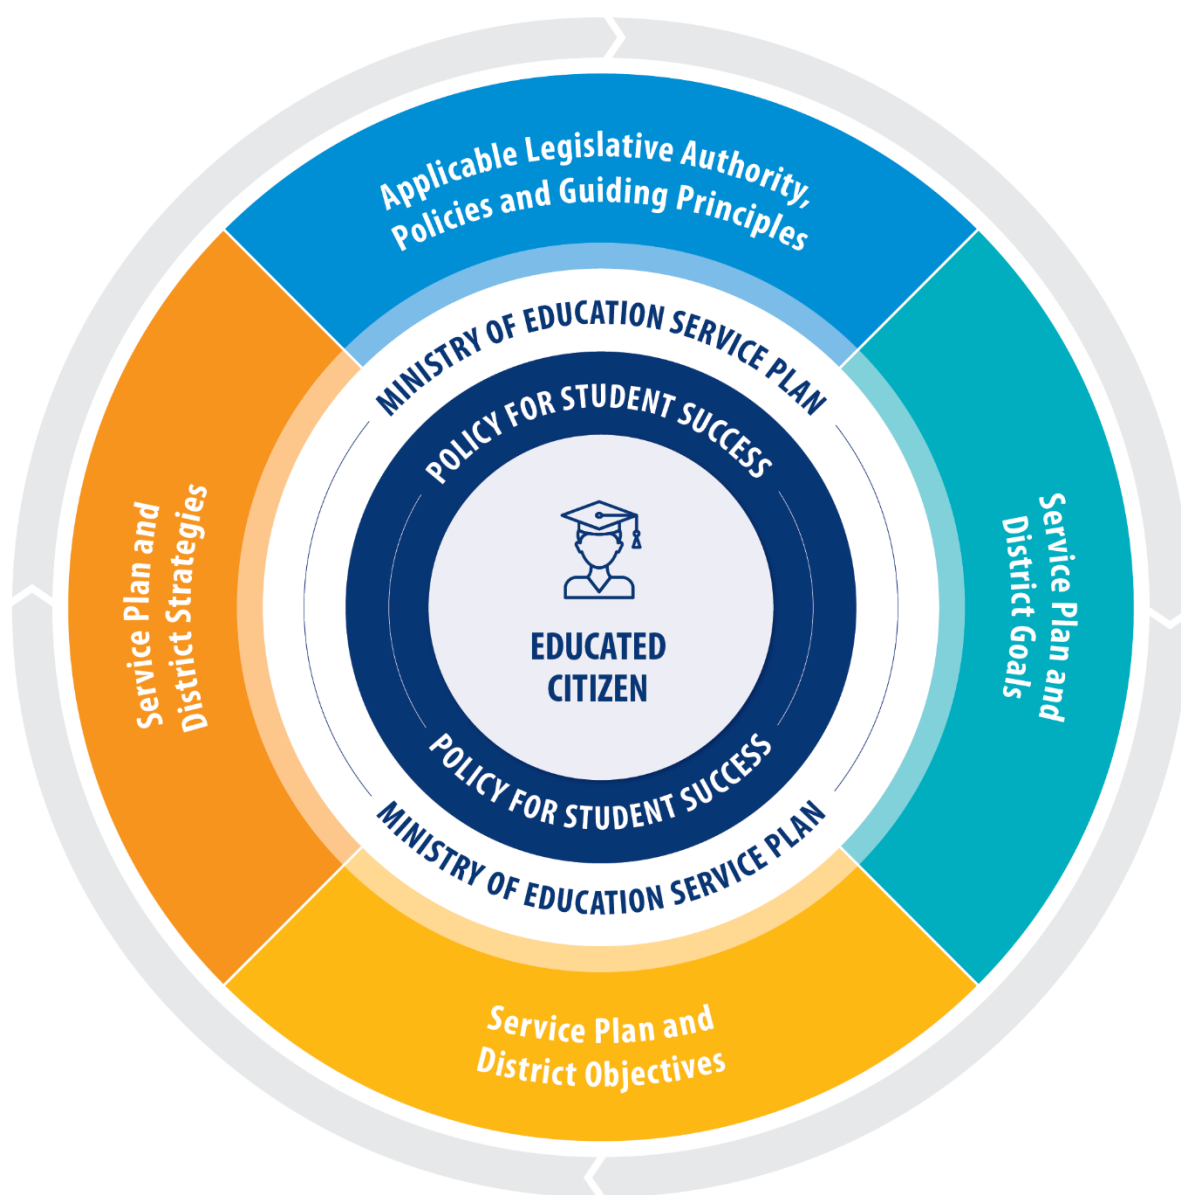

practices, to monitor the initial implementation of the *Framework* and guidelines, and to make improvements informed by sector-based experiences, practices and Indigenous ways of knowing.

Throughout the 2020-2021 school year, under the guidance of the Advisory Committee for Enhancing Student Learning, districts, education partners and Indigenous rightsholders will be supported in discussing and suggesting improvements to the *Framework* implementation processes and requirements.

Networking and professional learning opportunities and other activities related to the implementation of the *Framework* will be communicated through '[The Source](#)' located on the [Ministry Reporting SharePoint for School Districts](#) site. As they become available, sample planning resources for school districts will also be posted on 'The Source'. Examples of promising practices for planning, use of evidence and capacity-building to enhance student learning will be collected through a Continuous Improvement Review Program and posted.

SECTION B: BUILDING COHERENCE

The planning and reporting processes that school districts are expected to use should reflect the goals and objectives of the [Ministry Service Plan](#), align with the [Framework for Enhancing Student Learning Policy](#) and reflect the Building Coherence in Planning for Student Success diagram (see [Appendix E](#)).

MINISTRY SERVICE PLAN GOALS AND OBJECTIVES (see [Appendix C](#))

<p>GOAL #1 Ensure Students Become Educated Citizens</p>	<p>Ministry Service Plan Objectives:</p> <ul style="list-style-type: none"> ☑ Promote an Education System that Places Students at the Centre ☑ Establish and Maintain High and Measurable Standards ☑ Position the Education System to be Future-Oriented
<p>GOAL # 2 Support Healthy and Effective Learning Environments</p>	<p>Ministry Service Plan Objectives:</p> <ul style="list-style-type: none"> ☑ Encourage and Support Quality Teaching and Leadership ☑ Foster Safe and Welcoming Learning Environments

GUIDING PRINCIPLES

The *Framework for Enhancing Student Learning*:

- 1| creates a system-wide focus on individual student learning to ensure all students in BC achieve their full potential;
- 2| continues to build public trust and confidence in BC's education system by ensuring that all students are provided a high quality learning experience;
- 3| provides a structure to ensure that what is measured and reported is consistent with the focus on student success and in keeping with the goals of education in the province of British Columbia;
- 4| ensures capacity building and a system-wide commitment to continuous improvement and life-long learning;
- 5| recognizes that all education partners and Indigenous peoples and Indigenous rightsholders, each with unique contributions, share responsibility for student learning;
- 6| recognizes the individual learning needs of students and fosters equitable and inclusive learning environments;
- 7| focuses on intellectual, career, human and social development; including exploration of one's identity;
- 8| facilitates communication and ongoing authentic engagement of Indigenous peoples and Indigenous rightsholders in respectful collaborative action;
- 9| facilitates communication and ongoing authentic engagement of education partners in respectful collaborative action;

- 10|** reflects local and societal contexts, enabling innovative and flexible responses in classrooms, schools and districts with necessary supports from government;
- 11|** supports growth and achievement among particular groups of students, most notably Indigenous students, children and youth in care, and students with disabilities and diverse abilities;
- 12|** consistently uses evidence from a variety of sources to ensure responsive and transparent decision-making; and
- 13|** commits to demonstrating fiscal responsibility and effective stewardship of resources in supporting system and student outcomes.

SECTION C: COLLECTIVE COMMITMENTS

While respecting local autonomy to deliver educational programs and ensuring continuous improvement, the system requires a collective approach that recognizes diversity in British Columbia; relies on evidence-informed decision making; and is responsive to the needs of students (see [Appendix A for Framework for Enhancing Student Learning Policy](#)).

As per the Framework for Enhancing Student Learning Policy:

THE MINISTRY OF EDUCATION WILL:

- ☑ Provide provincial oversight of policy including:
 - conduct a review program to ensure boards of education continuously improve educational outcomes;
 - publish educational outcomes and measures for each school district each year. Results will be provided for all students and separately for each of the following student populations: Indigenous students, children and youth in care, and students with disabilities or diverse abilities. The provision of student results is subject to the [Freedom of Information and Protection of Privacy Act](#) and the Ministry's [Protection of Personal Information when Reporting on Small Populations](#) policy; data for small student groups may be masked to protect student privacy;
 - collaborate with Indigenous peoples and key education stakeholders throughout the process; and
 - work with boards to build capacity along a continuum of supports including communicate, facilitate, cooperate and direct using provincial and local information.

BOARDS OF EDUCATION WILL:

- ☑ Develop and implement a multi-year district strategic plan and individual school plans and will publish these annually on or before September 30;
- ☑ Use the district strategic and individual school plans to align all district annual operational plans, including but not limited to financial, human resources, Information Technology, engagement and communications and long-range facilities plans, with the educational objectives from the district strategic plan; and
- ☑ Participate in a continuous improvement review program, including:
 - reviewing the alignment of the school district strategic plan and the results of the educational outcomes for the school district to address student outcome deficiencies and inequities;

- acting on findings coming out of the continuous improvement review.
- collaborating with Indigenous peoples and key education stakeholders throughout the process;

Boards will submit an annual report to the Minister in accordance with the requirements in the [Enhancing Student Learning Reporting Order](#) (see [Appendix B for Enhancing Student Learning Order](#)).

TO SUPPORT THE OUTCOMES OF THE FRAMEWORK FOR ENHANCING STUDENT LEARNING POLICY, STUDENTS, PARENTS/GUARDIANS, EDUCATION PARTNERS, INDIGENOUS PEOPLES AND INDIGENOUS RIGHTSHOLDERS ARE ENCOURAGED TO:

- ☑ Provide guidance to implement the [Framework for Enhancing Student Learning policy](#);
- ☑ Provide guidance on accountability, implementation and capacity building in the education sector;
- ☑ Continue to approach issues collaboratively with an objective, open and collegial intent to problem solving, advising, and decision making;
- ☑ Support opportunities for enhancing student learning through greater equity; and
- ☑ Recognize different perspectives and experiences.

SECTION D: PLANNING FOR IMPROVEMENT

Develop and implement a multi-year district strategic plan and individual school plans

School districts and public schools are expected to develop multi-year plans for enhancing student learning and to update these plans annually at a time determined by each school district. These plans are public reports and should be accessible to all local communities.

Boards will develop and publicly communicate their process for strategically engaging Indigenous peoples, Indigenous rightsholders, and local education partners including Indigenous Education Councils and District Parent Advisory Councils to develop, implement, monitor, evaluate and align school district plans. Educational outcomes for Indigenous students, children and youth in care and students with disabilities or diverse abilities vary significantly, and numerous factors contribute to the level of educational success they experience. Additional efforts are necessary to improve educational outcomes for these students. For example, to ensure consistent and relevant support for Indigenous students, school district plans under this *Framework* would reflect commitments in existing agreements with local First Nations, Métis Chartered communities and Indigenous communities, including Aboriginal Education Enhancement Agreements, Equity Action Plans and Local Education Agreements. Boards will jointly determine with Indigenous Education Councils any educational strategies that are focused on Indigenous students and reflected in strategic plans.

To review and seek further input for the plan and prior to approving the strategic plan, a board should engage parents/guardians and students through established advisory structures at the school district and school levels, and Indigenous peoples and Indigenous rightsholders.

In each school year, every board of education in British Columbia will make public their district and school plans for enhancing student learning. The *Framework's* guiding principles and the following components should be reflected in their respective plans.

KEY COMPONENTS OF EFFECTIVE STRATEGIC PLANNING

A| Alignment toward common vision for the education system

District goals will demonstrate clear alignment with the [Educated Citizen](#).

District strategic plans will:

- align with Ministry Service Plan goals ([Appendix C](#)) and objectives and provincial educational outcomes and measures;

- provide a system-wide focus for enhancing student learning, helping to facilitate increased coherence to province-wide educational planning and continuous improvement efforts at the provincial, district, school, and student-levels;
- align with school plans and with the broader provincial priorities; and
- reflect other key commitments in place to establish coherence, e.g.: Aboriginal Education Enhancement Agreements, Equity in Action Plans and Local Education Agreements.

B| Strategic Engagement for Setting District Goals

Setting goals incorporates engagement with Indigenous peoples and Indigenous rightsholders and input based on authentic engagement with education partners at various points throughout the development process to ensure commitment and relevance.

Goals are:

- developed with Indigenous peoples and Indigenous rightsholders through Indigenous Education Councils; First Nation Education Councils; Métis Chartered communities; other existing committee structures;
- reflective of existing Local Education Agreements, Equity Action Plans or Aboriginal Education Enhancement Agreements to ensure consistent and meaningful support of Indigenous students;
- developed with education stakeholders such as District Education Committees; District Parent Advisory Councils; community forums; and other existing committee structures;
- proactively attentive to unique local and societal contexts; and
- developed with careful consideration of provincial goals and the local context. Care should be taken to communicate this information in meaningful and effective ways, enabling members of the local community to understand the value of this information, and how it is being used to enhance student learning.

C| Clear Focus on Improving Student Outcomes

The strategic plan should lead to stronger outcomes for students with an emphasis on students with learning support needs.

District strategic plans:

- build on the [Policy for Student Success](#) system-wide goals for supporting student learning:
 - Intellectual development
 - Human and social development
 - Career development (including skills development and transitions to post-secondary education)

- focus on achieving student success and educational outcomes for all students regardless of residence in the province;
- focus on achieving equity for Indigenous students, children and youth in care, and students with disabilities or diverse abilities;
- expand focus on achieving equity for students regardless of diverse abilities, medical diagnosis, race, colour, ancestry, place of origin, religion, physical or mental disability, academic ability, family status, sex, sexual orientation, gender identity or expression; and
- consider evidence-based information that will enhance learning and success for each student.

D| Evidence-informed Planning

Evidence and research are expected to be at the core of the strategic planning process to define current state; determine desired state; and identify relevant goals, objectives, strategies and success measures.

Plans will include:

- meaningful evidence that informs district and school objectives and strategies with respect to students' intellectual, human and social, and career development; including but not limited to:
 - results for Indigenous students both on and off reserve; and
 - a comparative review of graduation quality data including:
 - Dogwood Certificates, Adult Dogwood Certificates, and Evergreen Certificates
 - Students requiring skill and course upgrading for post secondary institution admissions
 - a comparative review of disaggregated data for diverse cohorts of students
 - including data sets on Indigenous students, children and youth in care, and students with disabilities or diverse abilities;
- information and data masked according to Ministry's [Protection of Personal Information when Reporting on Small Populations](#) policy;
- provincially collected results in conjunction with locally collected evidence to inform local planning efforts and decision making ([district data available](#) using the [Reporting SharePoint for School Districts site](#))

See [Appendix K- Timelines for Provincial Data Release](#)

- consideration of research-based high yield strategies to achieve goals and objectives;
- results from high-quality formative and summative assessment practices;

- consideration of diverse research describing characteristics of highly effective school districts and schools;
- analysis of triangulated evidence with multiple sources both provincial and local, and trends over time; and
- a variety of examples of local evidence such as:
 - disaggregated attendance data;
 - enhanced student, parent, teacher, and community surveys;
 - competency-based student assessment tools;
 - school portfolios that communicate evidence in a variety of ways, and can be readily updated as new information becomes available; and
 - locally-developed assessments.

E| Setting ambitious, measurable goals and objectives to achieve higher standards

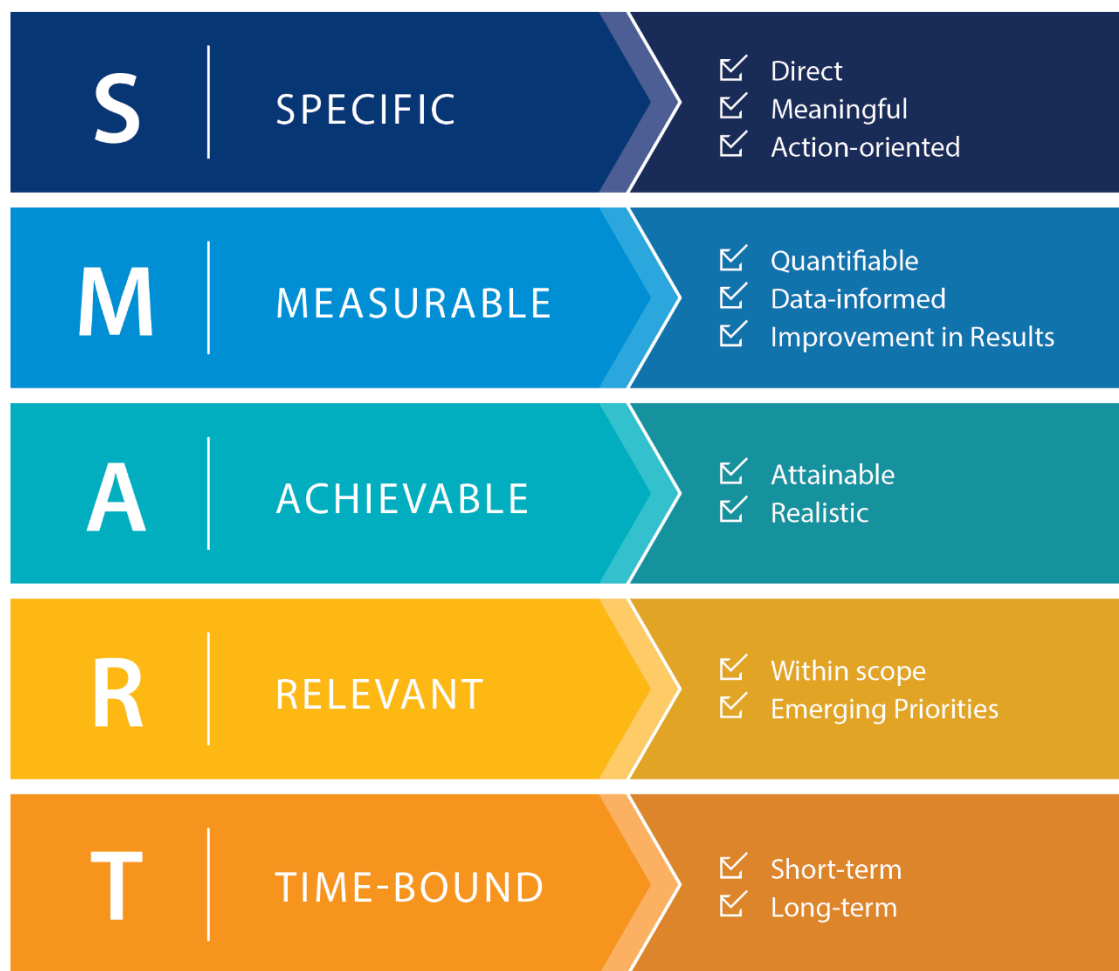

To successfully implement strategic plans, districts are expected to coordinate planning with appropriate measured goals and objectives frequently assessed through a continuous improvement cycle. Strategic plan goals are developed to achieve higher standards. Objectives are measured through a lens of a continuous improvement cycle to achieve the goals set out by the district.

Goals and objectives should:

- include measures indicating inequities of student success at district and schools levels;
- be aligned with the [First Peoples Principles of Learning](#);
- be developed to create momentum and future planning mindset;
- be aligned and be evidence-informed using a cycle of improvement; and
- be Specific, Measurable, Achievable, Relevant, and Time-bound

SMART GOALS

F| Developing a robust implementation approach

Strategies need to be implemented and monitored to meet the objectives and the goals in the strategic plan.

School districts should select strategies that:

- are research-based and demonstrate effectiveness in improving student outcomes;
- address biases through an equity lens (e.g.: [Gender-Based Analysis Plus \(GBA+\)](#))

HELPFUL INFO

- target specific students to ensure the equitable opportunities for success (e.g.: [Indigenous Education Targeted Funding Policy](#); [Special Education Target Funding Policy](#));
- are jointly determined with Indigenous Education Councils specifically for Indigenous students;
- are annually reviewed and adapted using an evidence-informed approach to improve learning and the quality and effectiveness of education programs in the district;
- develop capacity building at district and school levels through the use of existing and newly developed networks, cross-district teams, and professional learning opportunities and practices; and
- are shared annually to the public and the Ministry as part of the Enhancing Student Learning Report.

G| Strategic use of resources

Objectives and strategies should be practical in terms of what resources are available to achieve success.

The District Strategic Plan should:

- identify appropriate resources to implement strategies to meet district objectives;
- adhere to existing Ministry and district policies: e.g.: Indigenous Targeted funds Policy, SOGI policy, etc..
- include evidence of financial and other operational planning to support resourcing of strategies; and
- leverage existing resources which may require re-allocation; and
- target specific students to ensure the equitable opportunities for success (e.g.: [Indigenous Education Targeted Funding Policy](#); [Special Education Target Funding Policy](#)).

H| Appropriate timelines

Timelines should be reasonable and in line with the scope of the district's overall planning and reporting cycle.

Districts are required to establish timelines for:

- the multi-year strategic plan (goals, objectives, strategies) with Board of Education (see [Strategic Planning for Student Success diagram](#) on p.19 or see [Appendix F](#))
- the district's annual results review process as part of a continuous improvement cycle (see [Annual Reporting Cycle diagram](#) on p.20 or see [Appendix G](#))

This diagram provides an example of the planning process to develop a strategic plan

EXAMPLE A 3 - YEAR PLANNING CYCLE	
YEAR 1	Implement new strategic plan
YEAR 2	Continued implementation
YEAR 3	Final year of implementation Strategic stakeholder engagement New plan development with board of education

EXAMPLE B 4 - YEAR PLANNING CYCLE	
YEAR 1	Implement new strategic plan
YEAR 2	Continued implementation
YEAR 3	Continued implementation
YEAR 4	Final year of implementation Strategic stakeholder engagement New plan development with board of education

EXAMPLE C 5 - YEAR PLANNING CYCLE	
YEAR 1	Implement new strategic plan
YEAR 2	Continued implementation
YEAR 3	Continued implementation
YEAR 4	Continued implementation
YEAR 5	Final year of implementation Strategic stakeholder engagement New plan development with board of education

Boards of education determine their planning cycle based on their local context.

I| Clearly articulated respectful language

Language should be clear, accessible and appropriate in describing what the district is trying to achieve.

Public communication should consider local context and:

- acknowledge the [traditional territories](#) the district and schools operate within;
- provide for accessibility and sharing using a variety of platforms;
- be provided in the languages common in the community;
- consider literacy levels of community members;
- demonstrate coherence in the district by aligning all key documents to the strategic plan; and
- outline an engagement plan that clearly articulates the monitoring and communication process along with further engagement opportunities with education stakeholders and recognizes the distinctions between local Indigenous peoples including Métis and Inuit and Indigenous rightsholders.

Use the district strategic and individual school plans to align all district annual operational plans, including but not limited to financial; human resources; information technology; engagement and communications; and long-range facilities plans.

Strategic alignment of operational plans is the process of orienting the actions of all school district schools, departments and staff members to the board's strategic plan. Performing a comprehensive strategic alignment of all operational plans helps districts to work collaboratively together toward achieving the district's goals. Strategic alignment is an iterative process and requires engagement in plan creation.

Strategic planning and alignment of operational plans is an on-going process. At minimum, the board should receive annual reports from staff showing the progress made towards the goals and objectives and recalibrate to reflect new strategies.

KEY OPERATIONAL CONSIDERATIONS:

District operational plans should:

- reflect and support the goals, objectives and strategies of the strategic plan;
- support principles of equity and inclusivity supporting individual students' needs and experiences;
- be reviewed as part of the annual *Framework for Enhancing Student Learning* reporting process;
- be evaluated for relevance, effectiveness; impact and sustainability;
- show a priority-based budgeting process
 - including the evaluation of the effectiveness of targeted funding allocations (e.g.: [Indigenous Education Targeted Funding Policy](#); [Special Education Target Funding Policy](#));
 - including joint sign off with Indigenous Education Councils on targeted funding for Indigenous students;
 - to improve education outcomes for Indigenous students and students with disabilities or diverse abilities;
- leverage existing resources in the most efficient and effective manner to support the success of the strategic plan;
- be recalibrated annually;
- demonstrate innovative and creative solutions in the re-allocation of resources; and
- be realistic in terms of what resources are available to achieve success.

LONG TERM PLANNING

Long term planning is an essential component to achieving and sustaining strategic alignment.

School districts should consider creating the following long-term plans together with the Strategic Plan:

- Strategic Facilities Plan (Long Term Facilities Plan or Long Range Facilities Plan)
- Information Technology Plan (IT Plan)
- Human Capital Plan

For additional information on strategic alignment of operational plans, please see the BCSTA's 2020 Leadership Series [workbook](#)

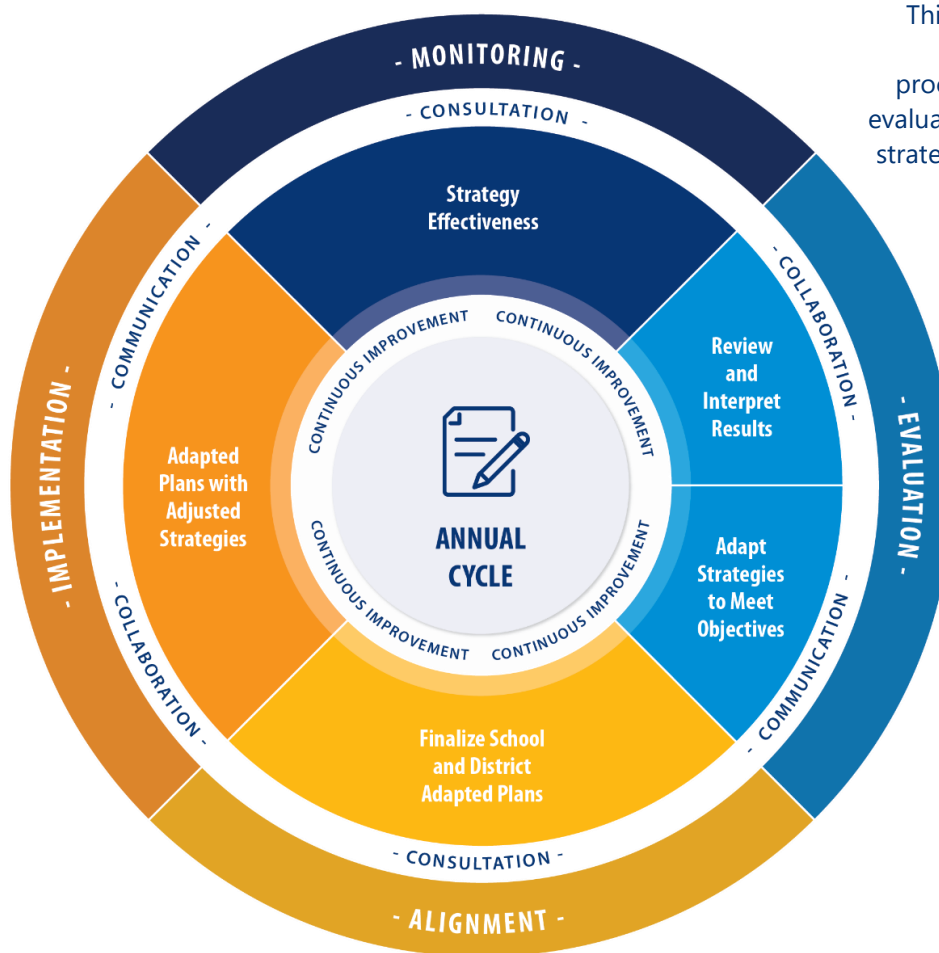

Participate in a continuous improvement review program

As part of the ongoing commitment to raise system performance, districts' participation in a continuous improvement cycle will ensure that each district is equitably focused on the educational success of all students and that school district operations are effective and efficient.

A COMPREHENSIVE APPROACH TO A CONTINUOUS IMPROVEMENT CYCLE INCLUDES:

- analyzing a district's alignment of strategic plans given the results of both the district's provincially and locally identified educational outcomes intended to address inequities in student learning;
- acting on findings coming out of a continuous improvement cycle (see [Appendix G](#)).

This diagram provides an example of an annual process to analyze results, evaluate the effectiveness of strategies and update plans accordingly.

SECTION E: REPORTING FOR PUBLIC ASSURANCE AND ACCOUNTABILITY

**Publish and submit an annual report to the Minister
between June 30th and September 30th**

To support district planning efforts, a set of provincially-collected data will be compiled by the Ministry of Education and publicly reported for the province and each school district on the [Student Success website](#). This evidence will also be shared on the Ministry of Education's [Reporting SharePoint for School Districts](#) site throughout the year as new data becomes available.

REPORTING GUIDELINES FOR THE ANNUAL ENHANCING STUDENT LEARNING REPORT

District reports are required to:

A| Demonstrate evidence of a continuous improvement review cycle; and

- show evidence of a cycle that includes the district and their schools;
- articulate how the plan will be implemented, monitored, evaluated and communicated; and how regular engagement will occur with education stakeholders, Indigenous peoples and Indigenous rightsholders;
 - examples include: Indigenous Education Councils; First Nation Education Councils; Métis Chartered communities; District Education Committees; District Parent Advisory Councils; community forums;
- evaluate the impact of implemented strategies to improve student success and emerging areas of focus;
- show adaptations to strategies as required; and
- show re-alignment of resources to support adapted strategies as required

B| Interpret and report the results of the provincial, district educational outcomes and measures for the school district;

- provincial results provided by the Ministry to districts annually as per the Framework policy
 - Intellectual Development
 - FSA results
 - Grade 10 literacy and numeracy results
 - Human and Social Development
 - Student Learning Survey results

- Career Development
 - Completion rate
 - Post Secondary Institute (PSI) transitions
- additional relevant local measures and results (qualitative and quantitative)
- contextual information including the identification of trends.

C| Interpret and report the results for all students and separately for each of the following student populations: Indigenous students, children and youth in care, and students with disabilities or diverse abilities.

- provincial results provided by the Ministry to districts annually as per the [Framework policy](#);
- additional relevant local measures and results (qualitative and quantitative);
- contextual information including the identification of trends as applicable. For example:
 - on reserve and off reserve student data
 - attendance data
 - graduation quality
- additional measures required by existing Local Education Agreements, Equity Action Plans and/or Aboriginal Education Enhancement Agreements.

D| Demonstrate adapted goals and strategies identified to address emerging areas of need;

- include an evaluation of the impact of implemented strategies to improve student success and emerging areas of focus; and
- show the adaptation to strategies as required.

E| Be published and communicated to the public annually; and

- include the weblink to the district strategic plan;
- be accessible using a variety of platforms;
- be posted on the home page of the district website, along with all public-facing strategic planning and operational documents, and updated annually; and
- be consistent with the [Freedom of Information and Protection of Privacy Act \(FOIPPA\)](#) requirements.

F| Demonstrate progress in district-wide implementation of a multi-year strategic plan and individual school plans including goals, objectives, strategies, measures; and

- indicate the current year of the lifecycle of the strategic plan e.g.: year 1 of 3 years;
- include a brief description of district local context;

- reflect the components of effective strategic planning previously outlined;
- include evidence of alignment of district operational plans; and
- include board of education approval, e.g. Board Chair signature or board meeting public motion; and
- reporting of results must be consistent with the [*Freedom of Information and Protection of Privacy Act \(FOIPPA\)*](#) requirements.

To assist districts in their planning and reporting processes, please refer to the following resources:

- [Confirmation of District Strategic Plan elements](#) (see [Appendix H](#))
- [Confirmation of Enhancing Student Learning Report elements](#) (see [Appendix I](#))

SECTION F: GLOSSARY

The following definitions are for the purpose of implementing the Enhancing Student Learning ministerial order and Framework for Enhancing Student Learning policy.

Accountability

Processes, mechanisms and/or instruments that support institutions (but also individuals and groups within institutions) in meeting their obligations and being responsive to the public (Verger & Parcerisa, 2017)

Assurance

Collaboratively nurturing and sustaining a professional culture of continuous improvement and collective responsibility. Through transparency and engagement, demonstrating to the public that the education system is meeting the needs of students and societal expectations.

Board of Education (Boards)

Trustees elected or appointed under the *School Act* responsible of the improvement of student achievement in the school district. Includes a francophone education authority.

Collaborate

Working directly with the public throughout the process to ensure goals and concerns are understood and considered. Public promise to seek advice and innovative solutions. Will attempt to incorporate public advice and recommendations to the maximum extent possible. (Developed by the International Association for Public Participation – IAP2)

Community

Community members who have an interest in education and the school, including Métis Chartered communities, First Nations and other members of the public.

Completion Rate

Portion of students who graduate with a Dogwood or Adult Dogwood within a certain amount of years from the first time they enroll in Grade 8, adjusted for Outmigration.

Consult

Obtaining public feedback on analysis, alternatives and/or decisions. Promise to inform, listen, and acknowledge public goals and concerns, and provide feedback on how input influenced the decision. (Developed by the International Association for Public Participation – IAP2)

Desired State

A specific, measurable and achievable outcome that, if demonstrated consistently, will provide assurance.

District Parent Advisory Councils (PACs)

The *School Act*-recognized parent voice at the school district level, representing the collective views of school Parent Advisory Councils (PAC) in a school district.

Diversity

Variability of people and ideas within an organization according to legally protected differences, such as race, age, disability, sexual orientation and gender identify and expression, and 'nonvisible' qualities, such as differences in thought, perspectives, education, socio-economic status, and life experiences, etc.

Education Partners

Organizations and associations recognized by the Ministry as actively working together in the interests of the education system to ensure student learning needs are met in the K-12 education.

Education Rightsholders

Individuals or organizations with the legal rights to act and be accountable for education initiatives – e.g.: representatives of Indigenous peoples (Article 14 of *UNDRIP* and *DRIPA*), minority language (Section 23 of *Canadian Charter of Rights and Freedoms*, and children (*School Act*, Article 28 and 29 of [OHCHR](#) and Article 24 of [UNCPRD](#))

Empower

Implementing the public's final decision. (Developed by the International Association for Public Participation – IAP2)

Evidence-Informed

Refers to the practices and processes associated with collecting and interpreting information to provide insight into performance, to summarize performance for information purposes and for informing appropriate decisions.

Governor

An elected official, part of a group of representatives, whose role is to provide oversight for the leadership of a public institution.

Graduation Quality

Portion of resident students who have graduated after passing English 12, English First Peoples 12, French 12, French as a First Language 12, excluding students who have graduated with Communications 12.

Inclusion

Creation of welcoming, respectful and engaging environments where diverse experiences, skills and talents are leveraged and individual ideas, backgrounds and perspectives are encouraged.

Indigenous Education Councils

The Ministry will work with FNEESC, MNBC and the BC School Trustees Association (BCSTA) as co-governors of the public K-12 education system, to co-develop an agreement on the process, guidelines and best-practice for Indigenous Education Councils.

Indigenous Peoples

Has the same meaning as "aboriginal peoples of Canada", as defined in section 35 of the Constitution Act, 1982 the Province recognizes First Nations, The Métis Nation and Inuit as the Indigenous peoples of
