

Free Flu Clinics for those at Risk

Join us at one of our free flu clinics.

Flu shots are safe, effective and free for:

- People 65 years and older and their caregivers/household contacts
- People of any age in residential care facilities
- Children and adults with chronic health conditions and their household contacts
- Children & adolescents (6 months to 18 years) with conditions treated for long periods of time with Acetylsalicylic Acid (ASA) and their household contacts.
- Children & adults who are morbidly obese (adult BMI ≥ 40 ; child BMI assessed as ≥ 95 th percentile)
- Aboriginal people (on & off reserve)
- All children 6 to 59 months of age
- Household contacts and caregivers of infants and children 0 to 59 months of age
- Pregnant women at any stage of pregnancy during the influenza season and their household contacts
- Inmates of provincial correctional institutions
- People who work with live poultry
- Health care and other care providers in facilities and community settings who are capable of transmitting influenza disease to those at high risk of influenza complications
- Individuals who provide care or service in potential outbreak settings housing high risk persons (e.g., crew on ships)
- People who provide essential community services (First Responders, Corrections Workers)
- Visitors to health care facilities and other patient care locations
